Have a COVID-19 vaccination appointment? RTC public transit can get you there!

Transit services access Southern Nevada Health District vaccination locations valley wide

Transit routes and appointment information available at rtcsnv.com/coronavirus.*

LAS VEGAS – The [Regional Transportation Commission of Southern Nevada](#) (RTC) provides convenient public transit service access to Southern Nevada Health District (SNHD) COVID-19 vaccination locations. If you have an appointment for a vaccine at one of the local SNHD sites, you can get there using fixed route public transit, or by appointment if you are certified for paratransit service.

“As the public transportation provider for our community, the RTC’s ability to provide access to designated COVID-19 vaccination sites is critical,” said M.J. Maynard, RTC CEO. “Many of our riders are qualified to receive the vaccine now, and we want to be sure they have the ability to get there as safely and conveniently as possible.”

Individuals should visit southernnevadahealthdistrict.org to determine vaccination eligibility, locate a vaccination site and make an appointment. Once you have an appointment, visit rtcsnv.com/coronavirus for a full list of SNHD vaccination locations and accessible routes, or use the rideRTC mobile app for contactless trip planning and payment.

While vaccination sites change regularly and the RTC does not guarantee vaccination availability, the current Health District locations below are accessible through both fixed route transit and paratransit services:

The RTC is committed to enhanced safety protocols during COVID-19, including additional cleaning and disinfecting, social distancing, mask enforcement, contactless fare payment options and real-time bus crowding information.

About the RTC

The RTC is the transit authority, transportation planning organization, regional traffic management agency and administrator of Southern Nevada Strong, the regional planning effort for the Las Vegas valley. The RTC's vision is to provide a safe, convenient and effective regional transportation system that enhances mobility and air quality for citizens and visitors. The RTC encourages residents and visitors to use a variety of transportation choices to help reduce traffic congestion, clean the air and improve the quality of life in Southern Nevada. For more information about the RTC and its major initiatives or to download its transit app rideRTC, visit tcsnv.com and stay informed by subscribing to our [blog](#).
